

# ABOUT

## Our Party

Republicans believe that equality, freedom and limited government will give all Americans the tools they need to succeed. Our party is deeply rooted in protecting human rights, preserving constitutional freedoms such as free speech, individual achievement and reducing the burdens added upon hard-working citizens. We are the Party that promotes jobs, assures opportunity and prosperity for all Americans.

Our focus is building a healthy economy based on free enterprise and sensible business practices, not by burdening families with overreaching government, ever-rising taxes and a suffocating debt. The successful future of American families and communities depends on a nation that is for the people.

Because we love our nation and desire to protect United States of America we are a party that supports strong national defense, healthcare reform that ensures quality care while lowering costs and empowering our children with quality education.

America needs Republican leadership, our passion and our principles to guide her back onto the road to recovery. The

American Dream is within our grasp and together we will make those dreams a reality.

Join us as we work toward a better future for Arizona and the United States of America.

**Gina Swoboda, Chairwoman**  
*Elected 1/27/2024*
